INVITATION LETTER

INCEPTION

2026

WHAT IS INCEPTION?

Signature event by SPE UNDIP SC that serves as a platform for competition and exhibition, fostering students' interest, innovation, and contribution in the oil and gas industry as well as in the energy transition through collaborative and sustainable initiatives.

GRAND THEME

Fostering Innovation and Talent Towards Sustainable Energy Future

This grand theme reflects INCEPTION's commitment to nurturing innovative ideas and talented individuals to actively contribute to the development of sustainable energy solutions, bridging technological advancement with environmental responsibility for a better future.

OUR ORGANIZATION

Society of Petroleum Engineers Universitas Diponegoro Student Chapter (SPE UNDIP SC) is a student chapter under SPE International and SPE Java. It is a widely known professional organization based in the Oil and Gas sector. We were established on November 24, 2014, with SC ID 6190. The new elected President for 2024 is Randy Rabbani Ardiansyah, and Ario Satria Nugraha as Vice President through our purpose of being vision & mission, #EmpoweringGrowth.

The Society of Exploration Geophysicists (SEG) is a global, non-profit organization dedicated to advancing applied geophysics. SEG mission is to promote the science of geophysics through education, research, and innovation. The organization provides resources such as technical journals, online courses, workshops, and international conferences, helping members stay at the forefront of geophysical technology and methods.
As an affiliated student chapter, SEG UNDIP SC serves as a bridge to these global resources, empowering students at Universitas Diponegoro to develop their professional skills and network within the geophysical industry.

INCEPTION 2026

CAREER TALK

The global energy sector is currently at a significant point of transition toward sustainability and energy independence. Changes in consumption patterns, the demand for technological innovation, and growing awareness of the importance of environmental protection have driven various breakthroughs in the energy field. Indonesia, as one of the countries blessed with abundant energy resources, holds great potential to play an important role in this global energy transition.

COMPANY VISIT

The global energy sector is currently at a significant point of transition toward sustainability and energy independence. Changes in consumption patterns, the demand for technological innovation, and growing awareness of the importance of environmental protection have driven various breakthroughs in the energy field. Indonesia, as one of the countries blessed with abundant energy resources, holds great potential to play an important role in this global energy transition.

Awarding

The global energy sector is currently at a significant point of transition toward sustainability and energy independence. Changes in consumption patterns, the demand for technological innovation, and growing awareness of the importance of environmental protection have driven various breakthroughs in the energy field. PAPER & POSTER COMPETITION

"Smart Fields, Smart Grid: Digitalization for a Sustainable Energy Mix"

A. Description

The Paper and Poster Competition is one of the competition branches in the INCEPTION 2026 event series organized by the Society of Petroleum Engineers from the Student Chapter of Diponegoro University. This competition is intended for university students at both national and international levels, serving as a platform to present scientific ideas, research findings, and innovative solutions related to current issues in the energy sector. In general, the competition consists of three stages: the first stage is the submission of abstracts, the second stage is the submission of the full paper, and the final stage is the presentation of the paper and poster prepared by the participants.

B. Background Theme

This theme highlights the important role of oil and gas energy in Indonesia's energy system, which has yet to be fully integrated with digital technology in an optimal manner. Limited use of technology continues to pose challenges in operational efficiency, production management, emission control, and integration with sustainable energy sources. Therefore, this theme focuses on the application of digitalization and technological innovations such as the Internet of Things (IoT), artificial intelligence, real-time monitoring systems, digital twins, and data analytics to improve the productivity, efficiency, and reliability of the national oil and gas industry. Through the integration of smart fields and smart grids, the oil and gas industry is expected to be able to operate in a smarter, more adaptive, and sustainable manner, while supporting Indonesia's energy transition towards a more efficient and environmentally conscious energy mix. So, this competition will provide a platform for all participants to showcase their innovative ideas based on this subtheme. The delegates be able to determine one of these topics, as follow :

C. Sub Theme

So, this competition will provide a platform for all participants to showcase their innovative ideas based on this subtheme. The delegates be able to determine one of these topics, as follow :

1. Synergizing Renewable Energy with Oil and Gas Systems for a Balanced Energy Mix
2. Driving Innovation through Advanced Decarbonization Technologies
3. Digital Transformation to Enhance Efficiency and Reliability in Oil and Gas Operations
4. Smart Environmental Digital Analytics for Emission Control and Sustainable Oil and Gas Operations

D. General Rules

1. Participants must be active students enrolled in D3/D4/S1 programs, proven by a valid Student Identification Card (KTM).
2. Each team consists of **two (2) or three (3) members** from the same university.
3. Each university is allowed to send more than one team.
4. Each team must appoint one member as the Team Leader who will serve as the main correspondent with the committee.
5. Each team is only allowed to **submit one work.**
6. All submissions must be **original and unpublished**, and must not have been previously competed for.
7. The submitted work must align with the main theme and one of the predetermined subthemes.
8. The Abstract, Full Paper, and Poster must be **written in English** and must not contain any SARA elements.
9. Preliminary stage are conducted online, while the final stage is conducted offline. Teams that qualify for the final stage must attend the Technical Meeting.
10. Any changes that occur will be announced at the Technical Meeting and communicated via the team leader's email.
11. If the participant violates the rules and formats that have been determined, or late submission of files can cause points reduction or even disqualification.
12. The decision given by the judges during the competition are absolute and cannot be contested under any circumstance.

E. Competition Format

1. Preliminary Round

At this stage, participants will submit an abstract that explains the essence of the proposed idea. The Preliminary Stage aims to assess innovative ideas and solutions proposed by participants through written essays. A total of 6 best teams will be selected to proceed to the final stage.

2. Semi Final Round

- At this stage, participants will submit a full paper and poster
- Teams that submit the paper late will be considered to have withdrawn.
- All decisions of the jury are final and cannot be contested.
- Papers that pass the selection stage will be announced on the Instagram account @Inception2026.

3. Final Round

- At This stage, only **6 teams that qualify** for final stage and must submit a presentation slides about their paper and poster
- The presentation slides and delivery must be in English.
- All team members must be present on the presentation day; no substitutes will be allowed.
- The order of teams presenting will be determined by a draw held during the technical meeting.
- The presentation will be conducted offline at Diponegoro University.
- Finalist teams are required to provide a printed hard copy of their complete poster to be submitted to the judges.
- The presentation will be held in a closed session, attended only by the judges and other participants.

Abstract

1. The abstract must be written in English.
2. The theme of the submitted abstract must not be changed in the Full Paper.
3. Abstract Format
   - Paper size : A4
   - Font type : Times New Roman Font size: 12
   - Line spacing : multiple at 1.15
   - Margin : Left = 2 cm, Top = 4 cm, Bottom = 3 cm, Right = 2 cm

E. Competition Format

- Alignment : Justified
- Header : INCEPTION 2026 header
- Abstract Template : https://bit.ly/FormatPPCInception2026
- Abstracts must be submitted to INCEPTION 2026 Website at **https://inception2026.com/** before February 20th, 2026, at 11:59 PM WIB (GMT+7) with the file format :
- Team Name_Abstract Inception 2026

Paper

1. The Full Paper must be written in English.
2. Content :
   - Abstract
   - Keywords (up to five)
   - Introduction
   - Literature Review/Regional Geology (optional)
   - Methods, procedures, and processes
   - Results/discussion
   - Conclusion
   - References
3. Full Paper Format :
   - Paper size : A4
   - Title : Times New Roman, font size: 14, style : Bold, Center
   - Font type : Times New Roman, font size: 12
   - Line spacing : multiple at 1.15
   - Margin : Left = 2 cm, Top = 4 cm, Bottom = 3 cm, Right = 2 cm
   - Alignment : Justified
   - Header : INCEPTION header
   - Footer : Page Number (bottom right corner)
   - Minimum and Maximum paper words: 7.000 – 10.000 words
   - Outline can be added if necessary to clarify and strengthen the flow of thought in the work.
4. Paper Template Link : **https://bit.ly/FormatPPCInception2026**
5. Full papers must be submitted to INCEPTION 2026 Website at **https://inception2026.com/** with the file name format: **TeamName_Paper Inception 2026**
6. The submission deadline is **March 30th, 2025**, at 11:59 PM WIB (GMT+7)

E. Competition Format

Poster

1. The poster must be a digital poster with A3 size (297 mm x 420 mm)
2. The poster must be submitted in JPG or JPEG format.
3. The poster content should cover the main points of the paper.
4. The poster must include the team identity, such as:
   - Team name
   - Full names of all team members
   - Institution or university affiliation
5. The poster must include the official Inception logo and the logos of SPE and SEG.
6. Logo link : **https://bit.ly/FormatPPCInception2026**
7. The poster file must be named according to the following format: **TeamName_Poster Inception2026**
8. The completed poster must be submitted to **INCEPTION 2026 Website** at **https://inception2026.com/**
9. Use the designated file naming format.
10. The deadline for poster submission is **March 30th, 2025**, before 11:59 PM WIB (GMT+7).

Presentation

1. University or institution logos are not permitted in the presentation slides.
2. There is no page limit for the presentation slides.
3. Participants are free to design their own presentation template.
4. The presentation file must be named using the format:
   - **Team Name_Presentation Inception 2026**
5. The presentation must be submitted in .pptx format to **INCEPTION 2026 Website** at **https://inception2026.com/** before **April 22nd, 2025,** at 11:59 PM WIB (GMT+7).
6. Teams that qualify for the final stage will present offline at Diponegoro University.

F. Judging Criteria

Preliminary Stage : Abstract

Criteria	Indicator	Weight
Abstract	Theme Relevance	20
	Format Relevance	20
	Benefits	10
	Content	35
	Creativity and Innovation	15
Total		**100**

Semi Final Stage : Paper & Poster

Criteria	Indicator	Weight
Paper	Paper Contents Include Introduction, Literature Review, Research Methods, Results and Discussion, and Conclusion	20
	Scope and Depth of Discussion Relevance of discussion content to the title and presentation of research results using graphic media and discussion using theoretical descriptions	30
	Data/Information Coverage and Timeliness and Methodology	10
	Content Relevance of the content to the theme and abstract, interesting paper ideas, and uniqueness of the poster's framework/concept	25
	Paper Format, Paper Compliance with the specified format	15
Total		**100**

F. Judging Criteria

Semi Final Stage : Paper & Poster

Criteria	Indicator	Weight
Poster	Poster Format The structure of the images displayed in the poster, the composition of the images, and the beauty of the visual presentation	40
	The relevance of the work to the theme and paper, interesting poster ideas, and the uniqueness of the poster's framework/concept	30
	Originality of work	20
	Instagram Like	10
Total		**100**

F. Judging Criteria

Final Stage : Presentation & QnA

Criteria	Indicator	Score	Weight
Presentation	Systematic presentation content (sequential, informative, aesthetic)	8	40
	Ability to master material	10	
	Use of clear and fluent language in presentations	9	
	Presentation Etiquette	8	
	Punctuality	5	
Question and Answer	Understanding the meaning of the question	15	60
	Accuracy of answers	25	
	Ethics in answering and responding to question from the judges	10	
	Contribution of all team members	10	
Total			**100**

G. Tournament Officials

1. **Judges**
   - During the presentation session, there are 3 judges who evaluate each team's performance. They assess the clarity of the explanation, the quality of the content, and how well the team delivers their ideas. Both judges work together to ensure fair and balanced scoring.
2. **Moderator**
   - The moderator leads the presentation session by introducing the team, explaining the rules, and making sure the session flows smoothly. They guide the sequence of presentations and manage the interaction between participants and judges.
3. **Timekeeper**
   - The timekeeper specifically monitors the duration of each team's presentation. They give signals at certain time marks, reminding the team when their remaining time is almost over. This helps maintain fairness, so every team receives the same amount of presentation time, and the event stays on schedule.
4. **Operator**
   - The operator supports the presentation by managing all technical needs, such as displaying slides, checking audio, and ensuring all files run smoothly. If any technical issues appear during a team's presentation, the operator provides quick assistance so the session can continue without interruption.
5. **Competition Committee**
   - The competition committee oversees the entire presentation process, making sure everything runs according to the schedule and rules. They coordinate all officials involved and ensure that each team is properly guided before and during their presentation.
6. **Liaison Officer**
   - The liaison officer assists teams before and during the presentation by guiding them to the correct room, confirming their presentation order, and helping them prepare their materials. They also support judges by providing what they need throughout the session.

H. Registration Guidelines

1. Registration will be carried out through the registration form distributed via **INCEPTION 2026 Website** at **https://inception2026.com/**
2. The registration fee must be submitted together with the registration according to the respective batch :
   - Early Bird Registration : IDR 60,000
   - Regular Registration : IDR 80,000
   - Semi Finalist Registration : IDR 150,000
   - Final Round Registration (Full Accomodation) : IDR 550,000
   - Final Round Registration (Non Accomodation) : IDR 400,000
3. Please kindly send the payment to one of these bank account :
   - **7311086417 (Dega Arsyan Widhya) - BCA**
   - File Naming: Please name your proof of payment file as **Name_Bank_Team_Competition** (Example**: Dega_BCA_TEAM_PPC**)
4. Selected finalists make it through the Paper & Poster Competition INCEPTION 2026. selection compulsory to finish the remain full payment to enter the final Stages.
5. Payment can be paid through the following accounts before the implementation date.
6. Participants are required to pay info amount and submit the payment evidence to the payment confirmation link that will be provided by the committee.
7. No refund will be given after visiting the contribution email as official participation of Paper & Poster Competition INCEPTION 2026.

I. Venue and Key Dates

Early Bird Open Registration : January 2nd – 9th, 2026
Regular Open Registration : January 10th – 31st, 2026
Preliminary Round : February 6th – 20th, 2026
Preliminary Round Last Submission : February 20th, 2026
Semi Finalist Announcement : February 27th, 2026
Semi Final Round : February 28th – March 30th, 2026
Semi Final Round Submission : March 30th, 2026
Finalist Announcement : April 14th, 2026
Finalist Preparation (PPT Submission) : April 15th – 22nd, 2026
Competition Day

- **Venue : Universitas Diponegoro, Semarang**
- **Date : April 25th, 2025**

D-Day Competition & Awarding : April 25th, 2026

J. Prize & Awards

The Winners of Paper & Poster Competition INCEPTION 2026 will be announced at Awarding Night. The winners will receive the following respective prizes :

- Champion : **IDR 4,500,000 + Certificate**
- 1st Runner-Up : **IDR 3,000,000 + Certificate**
- 2nd Runner-Up : **IDR 1,500,000 + Certificate**
- Best poster : **IDR 500,000 + Certificate**
- Best presentation : **IDR 500,000 + Certificate**

WELL STIMULATION COMPETITION

"Revitalizing Legacy Technologies for a Sustainable Energy Future"

A. Description

The Integrated Petroleum Competition (INCEPTION) 2026 is an annual event organized by SPE UNDIP SC for undergraduate students from various disciplines, featuring pre-events such as Career Talk and Company Visit, followed by multiple competitions including the Well Stimulation Competition. This competition challenges students to apply critical thinking, problem-solving, and teamwork skills by solving real-world oil and gas cases through report development and presentations. It is conducted in three stages: a preliminary round, a semifinal round involving 20 selected teams, and a final round where the top 6 teams present their solutions, from which three teams are selected as winners based on their final performance.

B. Background Theme

Energy in today's world is facing a paradox between ensuring energy resistance and accelerating a sustainable transition. Oil and gas are often taken for granted, even though this industry is a pillar of global development that has the resources, infrastructure, and keys most needed for innovation. The Well Stimulation Competition is a response to breaking old mindsets, shifting the paradigm that a sustainable energy future will not be achieved by abandoning the petroleum sector, but rather by transforming it through technological breakthroughs and visionary young talent.

The Well Stimulation Competition directly addresses the broad theme of "Fostering Innovation and Talent Towards a Sustainable Energy Future" by turning it into concrete action, empowering future leaders to hone the most cutting-edge technical skills. By focusing on well stimulation, we highlight the strategic role of petroleum as a living laboratory and catalyst for developing clean energy solutions, from carbon capture, geothermal, to hydrogen. Therefore, the Well Stimulation Competition carries the theme "Revitalizing Legacy Technologies for a Sustainable Energy Future" as a visionary response. A sustainable energy future will not be achieved by abandoning the legacy of the petroleum industry, but rather by embracing it, and well stimulation is proof of this.

C. General Rules

1. The Well Stimulation Competition is open to undergraduate students (S1/D4/D3) from all majors and universities worldwide. Participants are required to verify their active student status by submitting a valid student identification card or an official enrollment letter issued by their university.
2. Participants must complete the registration process and pay the registration fee according to the designated registration periods.
3. Participants registered in this competition are not allowed to take part in any other competitions under the INCEPTION 2026 series and may only join one team within the Well Stimulation Competition.
4. Each team must consist of a **minimum of three and a maximum of four members**, with one member appointed as the team leader. Team members may come from different academic backgrounds, but all must be from the same university.
5. The Well Stimulation Competition INCEPTION 2026 consists of three stages: preliminary stage, semifinal stage, final stage.
6. The announcement of finalists will be made on 14 April 2026, listing the teams eligible to advance to the final stage and present their case.
7. Each university may send unlimited teams, but only maximum 6 teams will advance to the final round.
8. Each team may submit only one essay, and the title and content must align with the main theme of the Well Stimulation Competition INCEPTION 2026: “Revitalizing Legacy Technologies for a Sustainable Energy Future".
9. All submitted materials must be original works, free from plagiarism, and must not have been previously used in any other competition.
10. All finalists are required to attend the Technical Meeting, which will be conducted online.
11. The Final Stage (D-Day Presentation) will be conducted offline at a location that will be announced later (TBA).
12. The Awarding Session will be held in 25 April 2026, coinciding with the closing ceremony of INCEPTION 2026.

D. COMPETITION FORMAT

1. The INCEPTION 2026 Well Stimulation Competition consists of three stages: **preliminary round, semifinal round and final round**. Preliminary Round includes the submission of abstracts. Semifinal Round includes the submission of a complete paper (Final Case Report). Final Round includes an offline presentation.
2. Participants must submit an essay and a final report aligned with the competition theme: **"Revitalizing Legacy Technologies for a Sustainable Energy Future."**
3. Teams whose essays pass the preliminary selection will qualify for the Semifinal Round. The announcement will be made by the committee on via email.
4. Teams advancing to the final round must submit a final report and a presentation deck.
5. In the final round (presentation), each team will have a total of 45 minutes
6. The presentation order will be determined during the Technical Meeting.
7. A timekeeper will be present during the presentation to provide time notifications.
8. Only judges are permitted to ask questions; the audience may not participate in questioning.
9. All decisions made by the judges are final and binding.
10. Any changes to the rules, clarifications, or updates to the agenda will be communicated to all participants via email and/or during the technical meeting.
11. The essay must be submitted in PDF format to INCEPTION 2026 website at **https://inception2026.com/.** The file should be named: **"TeamName_Essay_WSC_INCEPTION2026.pdf".**
12. The final report must be submitted in PDF format to INCEPTION 2026 website at **https://inception2026.com/.** The file should be named: **"TeamName_Final Report_WSC_INCEPTION2026.pdf".**

D. COMPETITION FORMAT

Essay (Preliminary Stage) Essay Guidelines will be provided through a link that will be sent to all participants.

1. The essay must be relevant and aligned with the specified theme.
2. The essay must be written in proper and clear English.
3. Participants must follow the essay writing guidelines as follows:
   a. Essay structure:
      - Title with a maximum of 20 words.
      - Essay consisting of 400 - 600 words.
      - Title font : Times New Roman, size 12, bold. ·Body text font : Times New Roman, size 12. ·Margin : 2.54 cm (top, left, right, bottom).
      - Spacing line : 1,15 cm.
      - Total word count : 450 - 700 words.
      - Alignment : Justified
   b. Logos and institutional names must not be included.
   c. References must be sourced from scientific journals, academic books, or relevant officials publications.
   d. References must be no older than 15 years.
4. Twenty (20) teams will be selected to proceed to the semi final round.
5. Points will be deducted for non-compliance with the format.

D. COMPETITION FORMAT

Semifinal Round

1. The final case report must be written in clear and proper English.
2. The content of the report must be relevant to and aligned with the designated theme.
3. Participants must follow the final report writing guidelines as follows:
   a. Format structure:
      - Title with a maximum of 20 words.
      - Title font : Times New Roman, size 12, bold. · Body text font : Times New Roman, size 12.
      - Margin : 2.54 cm (top, left, right, bottom)
      - Spacing line : 1,15 cm
      - Total page : 20 - 50 pages
      - Alignment : Justified
   b. Logos and institutional names must not be included.
   c. References must be sourced from scientific journals, academic books, or relevant official publications.
   d. References must be no older than 15 years.
4. During the Semifinal Round, participants are required to submit two documents: the Final Case Report and its corresponding Turnitin similarity report.

D. COMPETITION FORMAT

Final Round (Presentation)

1. The presentation must be relevant to and consistent with the competition theme.
2. Each team must prepare a presentation containing no more than 15 slides, including the cover slide and the reference list.
3. The presentation must be delivered in English.
4. All visuals, charts, and diagrams used must be clear, relevant, and properly cited.
5. A complete list of references must be included at the end of the presentation. The presentation must be aligned with the theme. Each team will have a total of 45 minutes to present:
   a. 15 minutes for the presentation.
   b. 30 minutes for the Q&A session with the judges.
6. Teams that exceed the allotted time will receive point deductions.
7. All team members are required to participate in delivering the presentation.
8. The presentation order will be determined randomly and announced prior to the start of the final stage.

E. Judging Criteria

Preliminary Stage

Judging Aspect	Score
Content Quality	40%
Technical Understanding	60%

Semi Final Stage

Judging Aspect	Score
Technical Depth and Accuracy	25%
Innovation and Applicability	20%
Environmental and Safety Consideration	15%
Result Interpretation and Validation	25%
Structure and Clarity	15%

E. Judging Criteria

Presentation (Final Stage)

Judging Aspect	Score
Presentation Content	35%
Delivery and Communication	20%
Technical Mastery (Q&A)	35%
Professionalism	10%

F. Tournament Officials

1. Judges There will be three jurors from collaborator partners and lecturers of Diponegoro University with professional backgrounds who will evaluate the entire work of the participants that have been gathered to get three winners.
2. MC and Moderator They will be the guide during the course of the competition, enforce the rules and regulations, and has the right to stop and continue the presentation.
3. Timekeeper There will be one timekeeper who enforces the time limit during the presentation session.
4. Operator There will be one operator who will be responsible for the use of media for presentations.
5. Liaison Officer Responsible for acting as a facilitator in the exchange of information between the committee and participants.
6. Documentators Responsible for all documentation related to the event.
7. Logistics They will be in charge of all event-related logistics.
8. Consumptions Responsible for every consumption that occurs during the event.
9. Medics They will be ensuring the health and safety of all participants throughout the even

G. Registration Guidelines

1. Registration will be carried out through the registration form distributed via **INCEPTION 2026 Website** at **https://inception2026.com/**
2. The registration fee must be submitted together with the registration according to the respective batch :
   - Early Bird Registration : IDR 60,000
   - Regular Registration : IDR 80,000
   - Semi Finalist Registration : IDR 150,000
   - Final Round Registration (Full Accomodation) : IDR 550,000
   - Final Round Registration (Non Accomodation) : IDR 400,000
3. Please kindly send the payment to one of these bank account :
   - **7311086417 (Dega Arsyan Widhya) - BCA**
   - File Naming: Please name your proof of payment file as **Name_Bank_Team_Competition** (Example**: Dega_BCA_TEAM_WSC**)
4. Selected finalists make it through the Well Stimulation Competition INCEPTION 2026. selection compulsory to finish the remain full payment to enter the final Stages.
5. Payment can be paid through the following accounts before the implementation date.
6. Participants are required to pay info amount and submit the payment evidence to the payment confirmation link that will be provided by the committee.
7. No refund will be given after visiting the contribution email as official participation of Well Stimulation Competition INCEPTION 2026.

H. Venue and Key Dates

Early Bird Open Registration : January 2nd – 9th, 2026
Regular Open Registration : January 10th – 31st, 2026
Preliminary Round : February 6th – 20th, 2026
Preliminary Round Last Submission : February 20th, 2026
Semi Finalist Announcement : February 27th, 2026
Semi Final Round : February 28th – March 30th, 2026
Semi Final Round Submission : March 30th, 2026
Finalist Announcement : April 14th, 2026
Finalist Preparation (PPT Submission) : April 15th – 22nd, 2026
Competition Day

- **Venue : Universitas Diponegoro, Semarang**
- **Date : April 25th, 2025**

D-Day Competition & Awarding : April 25th, 2026

I. Prize & Awards

The Winners of Well Stimulation Competition INCEPTION 2026 will be announced at Awarding Night. The winners will receive the following respective prizes :

- Champion : **IDR 4,500,000 + Certificate**
- 1st Runner-Up : **IDR 3,000,000 + Certificate**
- 2nd Runner-Up : **IDR 1,500,000 + Certificate**
- Best presentation : **IDR 500,000 + Certificate**

GEOTHERMAL DEVELOPMENT PLAN COMPETITION

"Empowering Young Innovators in Geothermal Development Towards Indonesia's Net Zero Future"

A. Description

The Integrated Petroleum Competition (INCEPTION) 2026 is an annual event organized by SPE UNDIP SC for undergraduate students from various disciplines, featuring pre-events such as Career Talk and Company Visit, followed by several competitions, including the Geothermal Development Plan Competition (GDPC). This competition challenges participants to design a sustainable and implementable geothermal field development plan based on a progressive real case study, developed from the preliminary to the final stage through report preparation and a live presentation before a panel of judges. The assessment focuses on geoscience analysis, technical planning, project economics, and sustainability principles aligned with the Net Zero Emission 2060 target, with the best teams selected based on the feasibility and quality of their proposed solutions.

B. Background Theme

Indonesia has a vast geothermal potential of more than 23.9 GW according to data from the Ministry of Energy and Mineral Resources (ESDM), yet only around 10% of this potential has been utilized. This gap highlights a major opportunity to accelerate geothermal development as a clean and sustainable energy source, positioning geothermal energy as a key pillar in supporting Indonesia's energy transition toward Net Zero Emissions (NZE) 2060 and a low-carbon energy system.

As a contribution to strengthening this capacity, the Geothermal Development Plan Competition (GDPC) is conducted as an academic platform that provides students with practical experience in designing geothermal field development strategies based on real case studies. The competition encourages critical and innovative thinking in producing development plans that are technically feasible, economically viable, and environmentally sustainable, with the aim of nurturing young talents who can support Indonesia's long-term energy resilience and NZE 2060 target.

C. General Rules

1. Participants must be active D3/D4/S1 students, proven by a valid Student Identification Card (KTM).
2. Each team consists of **three (3) or four (4) members** from the same university.
3. Each university is allowed to send more than one team to participate in the competition.
4. Each participant is only allowed to join one team in this competition and is not permitted to participate in any other INCEPTION 2026 competitions.
5. Team members may come from different study programs or faculties, as long as they are from the same institution.
6. Each team must appoint one Team Leader who will be responsible as the main correspondent with the organizing committee.
7. Participants must comply with all competition rules and technical requirements set by the INCEPTION 2026 committee.
8. Submitted work must be the team's original creation, has never been submitted to any competition before, and is free from plagiarism (according to the regulations).
9. Violation of these rules will result in disqualification from the competition.
10. Decisions made by the judges and committee are final and cannot be contested.

D. COMPETITION FORMAT

1. The Geothermal Development Plan Competition (GDPC) consists of three stages: **the Preliminary Round, the Semifinal Round, and the Final Round**, conducted using a progressive case study approach with increasing data complexity and analytical depth.
2. In the Preliminary Round, participants are required to submit an essay based on the initial geothermal case provided by the committee.
3. Teams that pass the Preliminary Round will advance to the Semifinal Round, with the announcement made on 27 February 2026.
4. In the Semifinal Round, qualified teams must submit a progress report (Final Case Report) that further develops the geothermal case with technical, economic, and sustainability considerations.
5. Teams advancing to the Final Round are required to submit a final report and a presentation deck.
6. The Final Round will be conducted as an offline presentation during the D-Day Competition, with each team allocated 45 minutes for presentation and Q&A.
7. The presentation order will be determined during the Technical Meeting, and a timekeeper will provide time notifications.
8. Only judges are allowed to ask questions during the presentation session.
9. All decisions made by the judges are final and binding.
10. Any updates or changes to the competition rules or schedule will be communicated via email and/or during the Technical Meeting.
11. All submissions must align with the competition theme: **"Empowering Young Innovators in Geothermal Development Towards Indonesia's Net Zero Future."**
12. The Preliminary Round essay must be submitted in PDF format to INCEPTION 2026 website at **https://inception2026.com/** by 20 February 2026 at 23:59 WIB, with the file and subject named according to the committee's guidelines.
13. The final report must be submitted in PDF format to INCEPTION 2026 website **https://inception2026.com/** by 30 March 2026 at 23:59 WIB, following the prescribed naming format.

D. COMPETITION FORMAT

Preliminary Round

In the early stages, participants will receive a basic case study from the collaborating partner, containing general geothermal field data along with 3–5 analytical questions related to both technical and non-technical aspects such as geoscience, reservoir, energy economics, and environmental sustainability.

Participants are required to prepare a preliminary essay that includes:

- Identification of key issues and field potential,
- Initial analysis of the technical and economic conditions,
- Initial ideas for an innovative and realistic field development direction.

The (10–15) teams with the highest scores will advance to the Final Case Submission to continue working on the same case study with additional data.

1. The essay must be relevant and aligned with the specified theme.
2. The essay must be written in proper and clear English
3. Essay structure:

- Title with a maximum of 20 words.
- Essay must consisting maximum 3000 words.
- Title Font : Times New Roman, size 14, bold.
- Body text font : Times New Roman, size 12.
- Spacing : 1.5
- Margin : Normal (2.54 cm top, left, right, bottom)
- Alignment : Justified
- Page size : A4

4. Logos and institutional names must not be included.
5. References must be sourced from relevant scientific journals, academic books, or official publications and written in APA style.
6. References must be no older than 10 years.
7. The file must be submitted in PDF format and named as : **TeamName_Essay_GDPC_INCEPTION2026**
8. The essay must be submitted to INCEPTION 2026 website at **https://inception2026.com/** before February 20, 2026 at 23.59 WIB.
9. Points will be deducted for non-compliance with the format.
10. Any form of plagiarism or submission of unoriginal work in the essay will result in immediate disqualification.

D. COMPETITION FORMAT

Semifinal Round

At this stage, the (10–15) finalist teams will receive further development of the same case study. The provided data includes reservoir technical information, surface facility design, project economics, as well as social and environmental aspects. Each team is required to prepare a Final Report that outlines a comprehensive geothermal field development plan, covering:

• Geoscience and reservoir analysis,
• Drilling plan and surface facility development,
• Project economic evaluation,
• Risk management and sustainability strategies.

The six (6) best teams will be selected to advance to the Final Round & Live Presentation at Diponegoro University.

1. The case report must be written in proper and clear English.
2. University or institution logo are not allowed to be included in the case report.
3. The case report must be relevant and aligned with the specified theme.
4. Participants must follow the final report writing guidelines as follows:

   a. Format structure:

- Title with a maximum of 20 words.
- Title font : Times New Roman, size 14, bold.
- Body text font : Times New Roman, size 12.
- Margin : 2.54 cm (top, left, right, bottom)
- Total page : 50 pages
- Alignment : Justified

   b. Logos and institutional names must not be included.

   c. References must be sourced from scientific journals, academic books, or relevant official publications.

   d. References must be no older than 10 years.

5. The file must be named as: TeamName_FinalReport_GDP_INCEPTION2025.pdf
6. Submit the file in PDF format to INCEPTION 2026 website **https://inception2026.com/** with the subject: **"TeamName_FinalReport_GDP"** before 20 February 2026, at 23:59 WIB.

D. COMPETITION FORMAT

Final Round

In the final round, the top five teams will act as professional geothermal consultants. They will present their final reports before the panel of judges and the audience. Each team is given:

• 15 minutes for the presentation, and

• 30 minutes for the question-and-answer (Q&A) session with the judges.

The final assessment is determined by:

• Final Report (40%) – Accuracy of technical analysis, integration of economic and sustainability aspects, and originality of the strategy.

• Presentation (30%) – Quality of delivery, visualization structure, persuasive ability, and overall presentation appeal.

• Q&A (30%) – Responsiveness, accuracy of arguments, and depth of understanding of the proposed solutions.

The three (3) teams with the highest total scores will be awarded 1st, 2nd, and 3rd Place, along with additional recognitions such as Best Presentation.

1. The presentation must be aligned with the theme
2. Each team is required to prepare a presentation consisting of a maximum of 20 slides, including the cover slide and references.
3. The presentation must be delivered in English.
4. All visuals, charts, and diagrams used must be relevant, clear, and properly cited.
5. Teams must provide a reference list at the end of their presentation
6. Each team will have a total of 50 minutes to present:
   - 5 minutes for the prepare
   - 15 minutes for the presentation.
   - 30 minutes for the Q&A session with the judges.
7. Teams exceeding the time limit will face point deductions.
8. Every team member must participate in the presentation.
9. The order of presentation will be determined randomly and announced before the final stage begins.

E. Judging Criteria

Preliminary Stage

Judging Aspect	Score
Understanding of the case study and identification of key issues	20%
Depth and accuracy of technical and non-technical analysis	20%
Creativity and originality of the proposed initial solutions	25%
Coherence of arguments and clarity of writing structure	20%
Compliance with formatting guidelines and overall writing quality	15%

Semi Final Stage

Judging Aspect	Score
Geoscience Analysis(Geology, Geochemistry, Geophysics, & Conceptual Model)	15%
ReservoirCharacterization & Resource Assessment	10%
Drilling Strategy& Well Design	10%
Economic Feasibility & Project Schedulinge	10%
Environmental, Social,and Regulatory Compliance	15%
Risk Management & Project Reliability	10%
Integration &Structure of FinalReport	10%
Innovation & Originality of Proposed Solution	10%

E. Judging Criteria

Final Stage (Presentation)

Final Round Score = 40% Report + 30% Presentation + 30% Q&A

Judging Aspect	Score
Clarity and integration of technical and non-technical analysis, delivered logically and comprehensively to a multidisciplinary audience	30%
Strength and relevance of arguments to the geothermal case and national energy sustainability issues	200%
Presentation delivery skills, including material mastery, clear flow, and persuasive vision	15%
Team professionalism, including confidence, articulation, teamwork, and academic attitude	15%
Visual quality and effectiveness of supporting materials	10%
Time management (maximum 15 minutes) and presentation flow control	10%

Final Stage (Q&A)

Judging Aspect	Score
Clarity and precision in answering questions accurately, relevantly, and demonstrating a deep understanding of the case study context	20%
Accuracy of responses based on data, factual evidence, and credible scientific approaches	30%
Clarity of delivery, ability to think systematically, appropriate use of technical terminology, and ability to adjust explanations to the audience level (English proficiency)	25%
Strength of arguments, ability to defend proposed solutions, and confidence in addressing critical questions from the jury	25%

F. Tournament Officials

1. Judges There will be three jurors from collaborator partners and lecturers of Diponegoro University with professional backgrounds who will evaluate the entire work of the participants that have been gathered to get three winners.
2. MC and Moderator They will be the guide during the course of the competition, enforce the rules and regulations, and has the right to stop and continue the presentation.
3. Timekeeper There will be one timekeeper who enforces the time limit during the presentation session.
4. Operator There will be one operator who will be responsible for the use of media for presentations.
5. Liaison Officer Responsible for acting as a facilitator in the exchange of information between the committee and participants.
6. Documentators Responsible for all documentation related to the event.
7. Logistics They will be in charge of all event-related logistics.
8. Consumptions Responsible for every consumption that occurs during the event.
9. Medics They will be ensuring the health and safety of all participants throughout the even

G. Registration Guidelines

1. Registration will be carried out through the registration form distributed via **INCEPTION 2026 Website** at **https://inception2026.com/**
2. The registration fee must be submitted together with the registration according to the respective batch :
   - Early Bird Registration : IDR 60,000
   - Regular Registration : IDR 80,000
   - Semi Finalist Registration : IDR 150,000
   - Final Round Registration (Full Accomodation) : IDR 550,000
   - Final Round Registration (Non Accomodation) : IDR 400,000
3. Please kindly send the payment to one of these bank account :
   - **7311086417 (Dega Arsyan Widhya) - BCA**
   - File Naming: Please name your proof of payment file as **Name_Bank_Team_Competition** (Example**: Dega_BCA_TEAM_GDPC**)
4. Selected finalists make it through the Geothermal Development Plan Competition INCEPTION 2026. selection compulsory to finish the remain full payment to enter the final Stages.
5. Payment can be paid through the following accounts before the implementation date.
6. Participants are required to pay info amount and submit the payment evidence to the payment confirmation link that will be provided by the committee.
7. No refund will be given after visiting the contribution email as official participation of Geothermal Development Plan Competition INCEPTION 2026.

H. Venue and Key Dates

Early Bird Open Registration : January 2nd – 9th, 2026
Regular Open Registration : January 10th – 31st, 2026
Preliminary Round : February 6th – 20th, 2026
Preliminary Round Last Submission : February 20th, 2026
Semi Finalist Announcement : February 27th, 2026
Semi Final Round : February 28th – March 30th, 2026
Semi Final Round Submission : March 30th, 2026
Finalist Announcement : April 14th, 2026
Finalist Preparation (PPT Submission) : April 15th – 22nd, 2026
Competition Day

- **Venue : Universitas Diponegoro, Semarang**
- **Date : April 25th, 2025**

D-Day Competition & Awarding : April 25th, 2026

I. Prize & Awards

The Winners of Geothermal Development Plan Competition INCEPTION 2026 will be announced at Awarding Night. The winners will receive the following respective prizes :

- Champion : **IDR 4,500,000 + Certificate**
- 1st Runner-Up : **IDR 3,000,000 + Certificate**
- 2nd Runner-Up : **IDR 1,500,000 + Certificate**
- Best presentation : **IDR 500,000 + Certificate**

BUSINESS CASE COMPETITION

"Empowering Young Innovators: Reinvent Energy Business Strategies fo a Sustainable Transition Era"

A. Description

INCEPTION Business Case Competition is one of the flagship events organized by the Society of Petroleum Engineers Universitas Diponegoro Student Chapter (SPE UNDIP SC). This competition serves as a platform for university students across Indonesia to sharpen their analytical thinking, problem-solving, and business strategy skills in addressing real-world challenges within the energy industry. Participants are encouraged to develop innovative, strategic, and sustainable solutions for business cases related to the oil, gas, and energy transition sectors. Open to students from all faculties and academic disciplines, the competition invites a diverse range of participants to engage with real-world challenges in the energy sector. It provides a unique opportunity for students from various backgrounds to collaborate, innovate, and develop impactful solutions to complex industry issues. The competition attracts top-tier talent from across the globe and promotes cross-disciplinary learning and networking.

B. Background Theme

The Business Case Competition (BCC) adopts the theme "Empowering Young Innovators: Reinvent Energy Business Strategies for a Sustainable Transition Era." This competition invites participants to explore innovative, data-driven, and future-ready solutions that address the evolving challenges of the global energy sector. Participants are expected to analyze real-world issues, design strategic frameworks, and propose sustainable business models that can accelerate the transition toward cleaner and more resilient energy systems. Through this competition, young innovators are encouraged to unleash their creativity, strengthen their critical thinking, and contribute meaningful ideas that support global sustainability goals and the future of energy

C. General Rules

1. INCEPTION 2026 Business Case Competition is open to all international undergraduate students.
2. The competition will be conducted in three stages; **the Preliminary Stage, the Semifinal Stage and the Final Stage.**
3. All communication during the competition, both verbal and written, must be conducted in English.
4. Each team must consist of **3–4 members** and can be from different majors at the same university.
5. Participants are prohibited from registering for different teams and being replaced at any stage.
6. Institution name and logo placement are prohibited at any stage. Only the official INCEPTION 2026 logo is permitted and available at (**https://bit.ly/BCC_Template**)
7. All participants must adhere to the competition's rules and regulations. Non-compliance may result in point deductions, disqualification, or other appropriate penalties.
8. Any form of plagiarism exceeding 40% (as indicated by tools such as Turnitin) will lead to immediate disqualification.
9. The top 6 selected from the semifinal stage will advance to the final stage.
10. Competition guidelines are subject to change. Any changes will be announced via the INCEPTION 2026 official accounts or emailed to team leaders.

D. Competition Format

Essay : Preliminary Round

1. Each team must submit an essay (.pdf) with the following guidelines:

Essay Format :

i. Page Layout

1. Size : A4
2. Margin : 2.5 cm (top, bottom, left, and right)
3. Numbering : Roman numerals style (I, II, III, etc.)
4. Paragraph Spacing : 1.15 lines, no space between paragraphs
5. Citation Style : APA 7

ii. Text Format

1. Title : Times New Roman, 14, bold, UPPERCASE
2. Subtitle : Times New Roman, 12, bold, UPPERCASE
3. Body : Times New Roman, 12, Mixed

iii. Template

1. Title (title format, center-aligned)
2. Author's names and emails below the title (body format, center-aligned)
3. The essay content must include an Introduction, Methodology, Result, Novelty, Conclusion, and References.

2. The essay is limited to a maximum of 5 pages. References and appendices may be included, but are not counted in the page limits

3. The essay template can be accessed at (**https://bit.ly/BCC_Template**)

4. The essay must be submitted via **https://inception2026.com/** with a file name : **INCEPTION2026_BCC_Essay_(Team Name)_(University Name)**

5. The essay must be sent no later than February 20th 2026 at 23.59 WIB

D. Competition Format

Full Papper : Semifinal Round

1. Each team must submit an essay (.pdf) with the following guidelines:

Full Paper Format

i. Page Layout

1. Size : A4
2. Margin : 2.5 cm (top, bottom, left, and right)
3. Numbering : Roman numerals style (I, II, III, etc.)
4. Paragraph Spacing : 1.15 lines, no space between paragraphs
5. Citation Style : APA 7

ii. Text Format

1. Title : Times New Roman, 14, bold, UPPERCASE
2. Subtitle : Times New Roman, 12, bold, UPPERCASE
3. Body : Times New Roman, 12, Mixed

iii. Template

1. Title (title format, center-aligned)
2. Authors' names and emails below the title (body format, center-aligned)
3. The full paper is the elaboration of the essay content, which must include an Introduction, methodology, result, novelty, conclusion, and references.

2. The full paper is limited to a maximum of 15 pages. References and appendices may be included, but are not counted in the page limit.

3. The full paper template can be accessed at (**https://bit.ly/BCC_Template**)

4. The full paper must be submitted via **https://inception2026.com/** with a file name : **INCEPTION2026_BCC_FullPaper_(Team Name)_(Unversity Name)**

5. The Full Paper must be sent no later than March 30th 2026 at 23.59 WIB

D. Competition Format

Final Stage : Pitch Deck & Presentation

Pitch Deck

1. Each team must submit a pitch deck (.pptx or pdf).
2. The pitch deck must use a 16:9 (widescreen) aspect ratio and is limited to a maximum of 20 slides. References and appendices may be included, but are not counted in the page limit.
3. The pitch deck must be submitted via inception2026.com with a file name: **INCEPTION2026_BCC_Pitch Deck_(Team Name)_(University Name)**
4. The pitch deck must be sent no later than April 22th 2026 at 23.59 WIB.

Presentation

1. All participants are required to attend the competition on April 25th 2026, which will be held offline at Diponegoro University
2. The final presentation will be conducted in a closed presentation, and the presentation order will be determined during the Technical Meeting
3. All participants must be dressed in formal attire during the final presentation
4. Each team will be allocated 15 minutes for the final presentation: 30 minutes for presentation and for a Q&A session with judges.
5. The pitch deck presented will be the submitted file prior to the pitch deck submission deadline

E. Judging Criteria

Preliminary Round

NO	Judging Criteria	Percentage
1	Content	70%
2	Technical	20%
3	Formatting	10%

Semifinal Round (Proposal)

NO	Judging Criteria	Percentage
1	Problem Breakdown	15%
2	Effectiveness, Efficiency, and Feasibility of The Idea	20%
3	Comprehensiveness & Depth	15%
4	Originality Idea	20%
5	Analysis Result & Solution	25%
6	Formatting	5%

E. Judging Criteria

Final Round (Pitching)

NO	Judging Criteria	Percentage
1	Explanation & Presentation	70%
2	Q &A	20%

Penalty

NO	Criteria	Point Deduction
1	Late submission	-5 (per 10 min)

F. Tournament Officials

1. Judges

There will be three judges from collaborator partners and lecturers of Diponegoro University with professional backgrounds who will evaluate the entire work of the participants that have been gathered.

2. Moderator

The moderator will guide during the course of competition, enforce the rules and regulations, and has the right to stop and continue the presentation.

3. Timekeeper

There will be one timekeeper who enforces the time limit during the presentation session.

4. Operator

There will be one operator who will be responsible for the use of media for presentations.

5. Liaison Officer

Responsible for acting as a facilitator in the exchange of information between the committee and participants.

G. Registration Guidelines

Registration can be accessed at : **https://inception2026.com/**

1. Every team is required to fill the participant's data. This form must include proof of payment and participants identity cards (ID card and student ID card)
2. Participants are required to post an Instagram post using the Inception 2026 twibbon template.
3. The registration fee must be submitted together with the registration according to the respective batch

Preliminary (Early Bid) : IDR 60.000
Preliminary (Normal) : IDR 80.000
Semifinal : IDR 150.000

4. For the payment can be paid through the following accounts before the implementation date. Please kindly send the payment to this bank accounts: 7311086417 (Dega Arsyan Widhya) - BCA. File Naming: Please name your proof of payment file as **Name_Bank_Team_Competition** (Example**: Dega_BCA_TEAM_BCC**)
5. Participants are required to pay info amount and submit payment evidence to the registration.
6. No refund will be given.
